

GEO Audit Report

Prepared for <https://preventativemedbyscience.com>

Score: 42.1/100 · Grade: F · Duration: 30.89s · Public crawl

Heuristics AI Solutions LLC · WWW.HEURISTICSAISOLUTIONS.COM

Executive Summary

The current GEO audit results in a score of 42.1/100, indicating a failing grade that significantly hinders search visibility and user trust. To improve performance, we must prioritize the following actions: first, implement a concise top-level summary and H1 to improve answerability; second, integrate an FAQ section with schema markup; third, establish E-E-A-T by adding detailed medical team bios and credentials; and finally, deploy Organization JSON-LD and entity markup to clarify site structure. By addressing these foundational issues, we will align the site with search engine requirements. The single biggest opportunity lies in restructuring the page to provide an immediate, authoritative answer to user queries, which will directly improve both user engagement and search engine ranking potential.

Priority issues & recommended fixes

Issue	Severity	How to fix on your website
Concise top answer	Not Meeting	Replace the navigation-heavy intro with a concise 40-50 word summary explaining your preventative medicine approach, core benefits, and how you help patients achieve health goals.
FAQ section	Not Meeting	Add an FAQ section with FAQPage schema covering long-tail question variants.
TL;DR / summary box	Not Meeting	Add a concise H1 and a 2-3 sentence 'About Us' summary at the top of the page that defines the clinic's core services and mission.
Definition blocks	Not Meeting	Add a clear H1 heading and a 2-3 sentence introductory paragraph immediately below the navigation that defines the practice and its primary medical services.
Step-by-step answers	Not Meeting	Use numbered (ol) steps with action verbs for how-to content.
Comparison answers	Not Meeting	Add comparison tables or 'A vs B' sections for comparative queries.
Author + credentials	Not Meeting	Add an 'About the Medical Team' section featuring headshots, professional bios, medical board certifications, and links to verified credentials for all practitioners.
Statistics & data	Not Meeting	Incorporate evidence-based statistics regarding treatment efficacy and cite reputable medical journals or clinical studies to build E-E-A-T.
Wikidata / Wikipedia entity	Not Meeting	Establish a Wikidata item / Wikipedia presence for the organisation.
Disclaimer / methodology	Not Meeting	Add a clear medical disclaimer in the footer and a 'Methodology' or 'Scientific Approach' section explaining how treatments are evaluated.

Answerability — 14.3/100

Parameter	What to check	Rating	Recommendation / Detail
Concise top answer LLM · Medium	Direct answer in first 40-50 words	Not Meeting	[High] Replace the navigation-heavy intro with a concise 40-50 word summary explaining your preventative medicine approach, core benefits, and how you help patients achieve health goals.
Question-phrased headings Crawl · High	H2/H3 as natural-language questions	Meeting	2 of 34 H2/H3 are questions
FAQ section Crawl · High	Marked up with FAQPage schema; long-tail variants	Not Meeting	[Med] Add an FAQ section with FAQPage schema covering long-tail question variants.
TL;DR / summary box LLM · Medium	Scannable summary easy for AI to lift	Not Meeting	[Med] Add a concise H1 and a 2-3 sentence 'About Us' summary at the top of the page that defines the clinic's core services and mission.
Definition blocks LLM · Medium	"X is defined as..." near the top	Not Meeting	[Low] Add a clear H1 heading and a 2-3 sentence introductory paragraph immediately below the navigation that defines the practice and its primary medical services.
Step-by-step answers Crawl · Medium	Numbered steps with clear action verbs	Not Meeting	[Low] Use numbered (ol) steps with action verbs for how-to content.
Comparison answers Crawl · Medium	Tables or "A vs B" sections for comparative queries	Not Meeting	[Low] Add comparison tables or 'A vs B' sections for comparative queries.

Extractability — 71.4/100

Parameter	What to check	Rating	Recommendation / Detail
Semantic HTML Crawl · High	article/section/aside/figure used correctly; not div-soup	Partial	[Med] Use semantic elements (article/section/figure) instead of nested divs.
Chunkable paragraphs Crawl · High	Short paragraphs (2-4 sentences); one idea each	Meeting	10/10 paragraphs <= 80 words
Lists & tables Crawl · High	HTML ul/ol/table (not image-based)	Meeting	lists=49, tables=0
Heading-to-content ratio Crawl · Medium	Each heading followed by substantive content	Partial	[Low] Ensure each heading is followed by substantive (not empty) content.
Code blocks / data blocks Crawl · Low	pre/code tags; machine-readable tables	Partial	[Low] Wrap code/data in <pre>/<code> and use real tables for datasets.
No content in images/PDFs LLM · Medium	Text not locked inside images/PDFs	Meeting	The provided text indicates that the content is rendered as HTML text rather than embedded within images or PDFs.

Parameter	What to check	Rating	Recommendation / Detail
Consistent terminology LLM · Medium	Same term used throughout; no synonym-switching	Partial	[Low] Standardize all service titles to a single format (e.g., use '&' consistently) and remove repetitive navigation menu text from the main content body.

Citability & E-E-A-T — 38.9/100

Parameter	What to check	Rating	Recommendation / Detail
Author + credentials LLM · Medium	Named author, bio, qualifications visible	Not Meeting	[Med] Add an 'About the Medical Team' section featuring headshots, professional bios, medical board certifications, and links to verified credentials for all practitioners.
Sources & citations Crawl · High	Outbound links to primary sources; references section	Meeting	outbound links=19, references section=False
Statistics & data LLM · Medium	Quantitative claims with source attribution	Not Meeting	[Low] Incorporate evidence-based statistics regarding treatment efficacy and cite reputable medical journals or clinical studies to build E-E-A-T.
Publish + updated dates Crawl · High	ISO 8601 dates in HTML + Article schema	Partial	[Med] Expose ISO 8601 datePublished/dateModified in HTML and Article schema.
About / Trust pages Crawl · High	About, Contact, Privacy pages present	Partial	[Low] Link to About, Contact and Privacy pages from the site.
Expert review signals Crawl · Medium	"Medically reviewed by..."/"Fact-checked by..." labels	Partial	[Low] Add "Reviewed by"/"Fact-checked by" labels for YMYL content.
Wikidata / Wikipedia entity External · High	Organisation/person entity exists	Not Meeting	[Low] Establish a Wikidata item / Wikipedia presence for the organisation.
Press mentions & awards External · Medium	Featured-in logos and award badges	Meeting	on_page_markers=False, serper_hits=10
Disclaimer / methodology LLM · Medium	Methodology explained for research/data content	Not Meeting	[Low] Add a clear medical disclaimer in the footer and a 'Methodology' or 'Scientific Approach' section explaining how treatments are evaluated.

AI Structured Data — 44.4/100

Parameter	What to check	Rating	Recommendation / Detail
Organization schema Crawl · High	name, url, logo, sameAs (socials, Wikidata)	Not Meeting	[Med] Add Organization JSON-LD with name/url/logo/sameAs.
Article schema Crawl · High	headline, author, datePublished, dateModified, publisher	Partial	[Med] Add Article JSON-LD (headline, author, dates, publisher).
FAQPage schema Crawl · High	Q&A pairs in JSON-LD	Partial	[Low] Add FAQPage JSON-LD for question/answer content.
HowTo schema Crawl · High	Steps with name, text, image	Partial	[Low] Add HowTo JSON-LD for step-by-step content.
Product / Offer schema Crawl · High	name, description, price, availability, aggregateRating	Partial	[Low] Add Product/Offer JSON-LD for product pages.

Parameter	What to check	Rating	Recommendation / Detail
Dataset schema Crawl · High	For research/data pages	Partial	[Low] Add Dataset JSON-LD for research/data pages.
Event schema Crawl · High	For time-bound content	Partial	[Low] Add Event JSON-LD for time-bound content.
ClaimReview schema Crawl · High	Fact-check pages	Partial	[Low] Add ClaimReview JSON-LD for fact-check content.
SpeakableSpecification Crawl · Medium	Important passages marked for voice/AI	Partial	[Low] Mark key passages with SpeakableSpecification for voice/AI surfaces.

Entity Clarity — 16.7/100

Parameter	What to check	Rating	Recommendation / Detail
In-text definitions LLM · Medium	First use of technical terms defined inline / linked	Not Meeting	[Low] Add descriptive tooltips or link these terms to dedicated educational pages that define the procedures and their clinical benefits.
Glossary page Crawl · Medium	Dedicated glossary with anchor links	Partial	[Low] Add a glossary page with anchor-linked term definitions.
Named entities marked up Crawl · High	People/places/orgs in schema with sameAs to authoritative URIs	Not Meeting	[Med] Mark up entities with sameAs links to Wikidata/Wikipedia/socials.
Disambiguation LLM · Medium	Clarify ambiguous terms near first use	Not Meeting	[Low] Add a clear H1 tag identifying the clinic name and a brief 'About Us' summary in the hero section to establish entity authority and disambiguate the brand.
Knowledge panel consistency External · Medium	Brand name/description/logo match Knowledge Panel	Partial	[Low] Build a consistent entity (name/description/logo) recognised by the Knowledge Graph.
Entity co-occurrence LLM · Medium	Mention related authoritative entities	Not Meeting	[Low] Include credentials of medical staff, cite specific clinical studies or medical associations, and add a 'Medical Review Board' section to establish E-E-A-T.

AI-Bot Crawlability — 97.1/100

Parameter	What to check	Rating	Recommendation / Detail
GPTBot / ClaudeBot / PerplexityBot Crawl · High	Explicit allow/disallow in robots.txt	Meeting	blocked: none
Google-Extended bot blocking Crawl · Medium	Controls AI Overviews training data	Meeting	Google-Extended blocked: False
ChatGPT-User bot blocking Crawl · Medium	Explicit allow/disallow for ChatGPT-User in robots.txt	Meeting	ChatGPT-User blocked: False
OAI-SearchBot bot blocking Crawl · Medium	Explicit allow/disallow for OAI-SearchBot in robots.txt	Meeting	OAI-SearchBot blocked: False

Parameter	What to check	Rating	Recommendation / Detail
Googlebot blocking Crawl · Medium	Explicit allow/disallow for Googlebot in robots.txt	Meeting	Googlebot blocked: False
GPTBot bot blocking Crawl · Medium	Explicit allow/disallow for GPTBot in robots.txt	Meeting	GPTBot blocked: False
PerplexityBot bot blocking Crawl · Medium	Explicit allow/disallow for PerplexityBot in robots.txt	Meeting	PerplexityBot blocked: False
Perplexity-User bot blocking Crawl · Medium	Explicit allow/disallow for Perplexity-User in robots.txt	Meeting	Perplexity-User blocked: False
ClaudeBot bot blocking Crawl · Medium	Explicit allow/disallow for ClaudeBot in robots.txt	Meeting	ClaudeBot blocked: False
Claude-User bot blocking Crawl · Medium	Explicit allow/disallow for Claude-User in robots.txt	Meeting	Claude-User blocked: False
Claude-SearchBot bot blocking Crawl · Medium	Explicit allow/disallow for Claude-SearchBot in robots.txt	Meeting	Claude-SearchBot blocked: False
llms.txt Crawl · High	Machine-readable site summary for LLMs	Meeting	/llms.txt exists: True
CCBot Crawl · Medium	Explicit allow/disallow	Meeting	CCBot blocked: False
Applebot-Extended Crawl · Medium	Apple Intelligence crawler directive	Meeting	Applebot-Extended blocked: False
meta-externalagent Crawl · Medium	Meta AI training/retrieval directive	Meeting	meta-externalagent blocked: False
Crawl rate limits Crawl · Medium	AI bots not throttled to stale content	Meeting	max Crawl-delay=0.0s
llms-full.txt Crawl · High	Extended page-level metadata file	Partial	[Low] Optionally publish /llms-full.txt with extended page-level metadata.

AI Quality Scores — 27.8/100

Parameter	What to check	Rating	Recommendation / Detail
Clarity score LLM · Medium	Writing unambiguous and scannable?	Not Meeting	[Med] Remove redundant navigation blocks, fix the truncated text at the end, and implement a clean, single-instance header/footer structure.
Authority score LLM · Medium	Expertise, credentials, sourcing signaled?	Not Meeting	[Med] Add an 'About the Doctor' section with credentials, board certifications, and link to peer-reviewed sources or clinical guidelines to establish E-E-A-T.
Comprehensiveness LLM · Medium	Covers topic fully enough to be self-sufficient?	Partial	[Med] Expand each service section with detailed clinical explanations, FAQs, and practitioner bios to provide comprehensive value on-page.
Citation likelihood LLM · Medium	Would an AI engine prefer this source?	Not Meeting	[Med] Remove redundant navigation blocks and duplicate text. Focus on unique, high-quality content that provides clear answers to user queries.

Parameter	What to check	Rating	Recommendation / Detail
Sample-query self-sufficiency test LLM · Medium	Ask 5-10 likely queries; does page alone answer each?	Not Meeting	[Med] Remove duplicate navigation elements. Replace with unique, high-quality content for each service, including medical methodology, provider credentials, and clear patient value propositions.
AI Overview appearance monitoring External · Medium	Cited in Google AI Overviews / SearchGPT / Perplexity?	Meeting	cited by: ['Perplexity'] for query 'Preventative Medicine by Science'
Hallucination surface area LLM · Medium	Reduce ambiguous claims AI might misattribute	Not Meeting	[Low] Remove redundant navigation menus. Replace with unique, evidence-based content for each service, clearly citing medical standards and specific patient outcomes to improve AI attribution.
Prompt-align test LLM · Medium	Simulate LLM summary; accurate and favourable?	Not Meeting	[Low] Remove redundant navigation blocks and duplicate text. Ensure the page content is unique, structured, and provides clear, concise information about services.
Competing source gap analysis External · Medium	Which sources AI cites for key queries that you lack	Meeting	target cited: True; competitors cited: ['acpm.org', 'amamedicalgroup.com', 'medschool.umich.edu', 'preventivemedicinevt.com', 'webmd.com', 'youtube.com']

Multimodal & Voice GEO — 30.0/100

Parameter	What to check	Rating	Recommendation / Detail
Image alt text quality Crawl · High	Descriptive alts that match image content	Not Meeting	[Low] Write descriptive alt text (3+ meaningful words) that matches each image.
Video transcripts Crawl · Medium	Full text transcripts on-page or in schema	Meeting	video=False, transcript signal=False
Conversational phrasing LLM · Medium	Some content in natural spoken language for voice	Not Meeting	[Low] Rewrite the homepage to include a FAQ section or conversational summary that directly answers 'What is preventative medicine?' in a natural, spoken-word format.
Featured snippet shape LLM · Medium	Match Google's voice/AI format: paragraph, list, or table	Not Meeting	[Low] Replace repetitive navigation text with structured content (e.g., a 'Services' list or 'About Us' paragraph) that directly answers common user search queries.
SpeakableSpecification (voice) Crawl · Medium	Passages marked for text-to-speech	Partial	[Low] Mark key passages with SpeakableSpecification for text-to-speech.

AI Search Health — 65.7/100

Parameter	What to check	Rating	Recommendation / Detail
AI Search Health score Crawl · Medium	Five-pillar technical AI search readiness for the audited page	Partial	score=65.7%; access=100.0%; structured=33.3%; extractability=71.4%; citation=28.0%; baseline=78.6%
