Executive Summary

AI Search Overview · preventativemedbyscience.com

AI Search Health

0.0% pages blocked from AI crawlers

Overview — issues & resolutions

- **Word count / content depth (Not Meeting)**
Resolution: Remove redundant navigation blocks from the main content area. Develop comprehensive, expert-led sections for each service to provide actual value and depth.
- **Keyword usage (Not Meeting)**
Resolution: Update H1 to include a specific service-based keyword like 'Preventative Medicine and Hormone Therapy'. Remove redundant navigation text from the first 100 words to improve keyword density.
- **Content freshness signals (Not Meeting)**
Resolution: Show visible publish and last-updated dates on content pages.
- **E-E-A-T signals on-page (Not Meeting)**
Resolution: Add a dedicated 'About' page with provider bios, medical credentials, and board certifications. Include author bylines on service pages to establish E-E-A-T.
- **Security headers (Not Meeting)**
Resolution: Add CSP, X-Frame-Options and Referrer-Policy response headers.
- **LCP (Not Meeting)**
Resolution: Optimise the largest element (image/text) and reduce render-blocking work.
- **Lighthouse scores (Not Meeting)**
Resolution: Raise each Lighthouse category to ≥ 90 (perf, a11y, best practices, SEO).
- **Field data (CrUX) (Not Meeting)**
Resolution: Drive enough real traffic to qualify for CrUX field data, then optimise it.
