

SEO Audit Report

Prepared for <https://preventativemedbyscience.com>

Score: 57.3/100 · Grade: F · Duration: 30.89s · Public crawl

Heuristics AI Solutions LLC · WWW.HEURISTICSAISOLUTIONS.COM

Executive Summary

Your website currently holds an SEO performance score of 57.3/100, resulting in a failing grade. To recover, we must prioritize technical and content improvements in this order: first, optimize Core Web Vitals to achieve Lighthouse scores of 90+; second, restructure on-page content by removing redundant navigation blocks and expanding service pages with expert-led, keyword-optimized copy; third, implement robust E-E-A-T signals, including provider bios and author bylines; and finally, deploy comprehensive Schema.org JSON-LD. Addressing these foundational issues will stabilize your search rankings and improve user experience. The single biggest opportunity lies in transforming your service pages into authoritative, expert-driven resources that satisfy both search engine algorithms and the specific intent of your prospective patients.

Priority issues & recommended fixes

Issue	Severity	How to fix on your website
Word count / content depth	Not Meeting	Remove redundant navigation blocks from the main content area. Develop comprehensive, expert-led sections for each service to provide actual value and depth.
Keyword usage	Not Meeting	Update H1 to include a specific service-based keyword like 'Preventative Medicine and Hormone Therapy'. Remove redundant navigation text from the first 100 words to improve keyword density.
Content freshness signals	Not Meeting	Show visible publish and last-updated dates on content pages.
E-E-A-T signals on-page	Not Meeting	Add a dedicated 'About' page with provider bios, medical credentials, and board certifications. Include author bylines on service pages to establish E-E-A-T.
Security headers	Not Meeting	Add CSP, X-Frame-Options and Referrer-Policy response headers.
LCP	Not Meeting	Optimise the largest element (image/text) and reduce render-blocking work.
Lighthouse scores	Not Meeting	Raise each Lighthouse category to ≥ 90 (perf, a11y, best practices, SEO).
Field data (CrUX)	Not Meeting	Drive enough real traffic to qualify for CrUX field data, then optimise it.
Font loading strategy	Not Meeting	Use font-display: swap, preload key fonts and define fallbacks.
Schema.org JSON-LD	Not Meeting	Add relevant Schema.org JSON-LD (Article/Product/FAQ/Organization, etc.).

Core Web Vitals (PageSpeed Insights · mobile)

- LCP: 13136.222017831267ms
- CLS: 0

- INP: 0ms
- TTFB: 4ms
- Lighthouse — performance: 59, accessibility: 91, best-practices: 100, seo: 100

Crawlability & Indexability — 94.4/100

Parameter	What to check	Rating	Recommendation / Detail
robots.txt Crawl · High	Correct disallow rules; no accidental crawl blocks on key pages	Meeting	robots.txt found; site-wide block: False
sitemap.xml Crawl · High	Present; no 4xx/5xx URLs; lastmod populated	Meeting	exists=True, urls=1, lastmod=1
sitemap GSC-submission status Manual · None	Submitted to Google Search Console	Manual	Connect the domain via OAuth (scripts/google_auth.py) and add it to connected_properties.json.
Meta robots Crawl · High	No unintended noindex/nofollow; check X-Robots-Tag header	Meeting	meta robots='max-image-preview:large', x-robots-tag=""
Canonical tags Crawl · High	Self-referencing; no conflicting/chained canonicals	Meeting	canonical='https://preventativemedbyscience.com/'
HTTP status & redirects Crawl · High	No redirect chains > 1 hop; 301 not 302 for permanent	Meeting	status=200, hops=0, uses_302=False
Crawl depth Crawl · High	Key pages reachable within 3 clicks from homepage	Meeting	max observed depth=1 across 13 pages
Pagination handling Crawl · Medium	rel=next/prev or infinite-scroll pattern; no thin dupes	Partial	[Low] Use rel=next/prev (or canonical) on paginated series to avoid thin dupes.
Log file analysis Manual · None	Googlebot visit frequency; crawl budget waste	Manual	Connect the domain in connected_properties.json to use GSC URL Inspection.
XML sitemap index Crawl · High	Sitemap index pointing to sub-sitemaps (news/image/video)	Meeting	is_index=True, sub_sitemaps=1
noarchive / nosnippet Crawl · High	No accidental suppression of snippets or cached pages	Meeting	noarchive/nosnippet present: False

On-Page Signals — 53.6/100

Parameter	What to check	Rating	Recommendation / Detail
Title tag Crawl · High	50-60 chars, primary keyword near front, unique	Partial	[High] Rewrite the title to 50-60 chars with the primary keyword near the front.
Meta description Crawl · High	150-160 chars, action-oriented, includes target keyword	Partial	[Med] Write a 150-160 char meta description with a call to action + keyword.
Heading hierarchy Crawl · High	Single H1; logical H2->H3; no skipped levels	Partial	[Med] Use exactly one H1 and a logical H2->H3 structure without skipping levels.

Parameter	What to check	Rating	Recommendation / Detail
Word count / content depth LLM · Medium	Matches competitive benchmark; no thin content	Not Meeting	[Med] Remove redundant navigation blocks from the main content area. Develop comprehensive, expert-led sections for each service to provide actual value and depth.
Image alt coverage Crawl · High	Informational images have alts; decorative use alt=""	Meeting	alt coverage=100% over 6 images
Internal links + anchor text Crawl · High	Keyword-rich anchors; no orphan pages; logical graph	Meeting	164 internal links, 160 with descriptive anchors
Keyword usage LLM · Medium	Primary keyword in title/H1/first 100 words; related terms	Not Meeting	[Med] Update H1 to include a specific service-based keyword like 'Preventative Medicine and Hormone Therapy'. Remove redundant navigation text from the first 100 words to improve keyword density.
Duplicate content Crawl · Medium	Near-duplicate pages consolidated via canonical/301	Meeting	canonical present: True
Content freshness signals Crawl · High	Visible publish + last-updated dates	Not Meeting	[Low] Show visible publish and last-updated dates on content pages.
Table of contents Crawl · High	Anchor-linked ToC on long-form pages	Meeting	toc anchors detected: False, words=1111
E-E-A-T signals on-page LLM · Medium	Author bio, credentials, About page, attribution	Not Meeting	[Med] Add a dedicated 'About' page with provider bios, medical credentials, and board certifications. Include author bylines on service pages to establish E-E-A-T.
Outbound link quality LLM · Medium	Links to authoritative, topically relevant external sources	Partial	[Low] Remove redundant login links. Replace with diverse, high-authority medical citations (e.g., PubMed, NIH, or peer-reviewed journals) to support preventative medicine claims.
Multimedia coverage Crawl · High	Video, images, or infographics present	Meeting	images=6, video/iframe=False
LSI / semantic coverage LLM · Medium	Topic completeness vs top-ranking pages	Partial	[Med] Expand content to include evidence-based preventative screenings, nutritional guidance, exercise science, and chronic disease prevention strategies beyond hormone optimization.

Technical SEO — 80.0/100

Parameter	What to check	Rating	Recommendation / Detail
HTTPS / SSL Crawl · High	Valid cert; no mixed content; HSTS header	Partial	[High] Serve all resources over HTTPS and add a Strict-Transport-Security header.
Mobile viewport Crawl · High	Meta viewport; no horizontal scroll; tap targets >= 44px	Meeting	viewport='width=device-width, initial-scale=1'
URL structure Crawl · High	Lowercase, hyphens, keyword-rich, < 115 chars, no junk params	Meeting	len=36, path=""
hreflang Crawl · Medium	Correct lang/region; self-referencing; x-default set	Meeting	hreflang tags=0, x-default=False

Parameter	What to check	Rating	Recommendation / Detail
Broken links Crawl · High	0 internal 4xx; external link monitoring	Meeting	0 broken of 13 sampled links
Render-blocking resources PSI · None	CSS/JS deferred or async; critical CSS inlined	Not Measured	PageSpeed Insights unavailable (no key/quota/audit).
JavaScript rendering Crawl · Medium	Critical content not JS-only	Meeting	raw words=879, rendered words=1111
HTTP/2 or HTTP/3 Crawl · High	Protocol version check	Meeting	protocol=HTTP/2
Server response time Crawl · High	TTFB < 200ms; server-side caching	Partial	[Med] Reduce TTFB with server-side caching, a CDN and faster backend responses.
Image compression & format PSI · None	WebP/AVIF; lazy loading; explicit width/height	Not Measured	PageSpeed Insights unavailable (no key/quota/audit).
Third-party script impact PSI · None	Defer non-critical scripts	Not Measured	PageSpeed Insights unavailable (no key/quota/audit).
Security headers Crawl · High	CSP, X-Frame-Options, Referrer-Policy	Not Meeting	[Low] Add CSP, X-Frame-Options and Referrer-Policy response headers.
AMP / Web Stories Crawl · Low	Valid AMP markup + AMP-canonical pairing	Meeting	AMP markup detected: False (AMP is optional)

Core Web Vitals & Performance — 43.8/100

Parameter	What to check	Rating	Recommendation / Detail
LCP PSI · High	<= 2.5s; main image/text block is largest element	Not Meeting	[High] Optimise the largest element (image/text) and reduce render-blocking work.
CLS PSI · High	<= 0.1; reserve space for media/embeds	Meeting	measured=0.000 (good<= 0.1, poor> 0.25)
INP PSI · High	<= 200ms; replaces FID	Meeting	measured=0.000ms (good<= 200ms, poor> 500ms)
TTFB PSI · High	<= 800ms; server + CDN tuning	Meeting	measured=4.000ms (good<= 800ms, poor> 1800ms)
Lighthouse scores PSI · High	Performance, Accessibility, Best Practices, SEO >= 90	Not Meeting	[Med] Raise each Lighthouse category to >= 90 (perf, a11y, best practices, SEO).
Field data (CrUX) PSI · High	Real-user field data; lab != real users	Not Meeting	[Low] Drive enough real traffic to qualify for CrUX field data, then optimise it.
Mobile vs desktop delta PSI · High	Run CWV separately for mobile and desktop	Partial	[Low] Close the mobile/desktop performance gap (usually mobile needs work).
Font loading strategy Crawl · High	font-display: swap; preload key fonts; fallbacks	Not Meeting	[Low] Use font-display: swap, preload key fonts and define fallbacks.

Structured Data & Social — 37.5/100

Parameter	What to check	Rating	Recommendation / Detail
Schema.org JSON-LD Crawl · High	Article, Product, FAQ, HowTo, BreadcrumbList, Organization, LocalBusiness	Not Meeting	[Med] Add relevant Schema.org JSON-LD (Article/Product/FAQ/Organization, etc.).
OG / Twitter cards Crawl · High	og:title, og:image (1200x630), og:description, twitter:card	Meeting	og_core=True, twitter_card=True
Favicon Crawl · High	SVG + 32px PNG + apple-touch-icon	Meeting	icon links=3, apple-touch-icon=True
Rich result eligibility Crawl · Medium	Warnings/errors check	Not Meeting	[Low] Ensure schema includes all required properties for its rich-result type.
Breadcrumb schema Crawl · High	BreadcrumbList on interior pages	Not Meeting	[Low] Add BreadcrumbList JSON-LD to interior pages.
Sitelinks searchbox Crawl · High	WebSite schema with potentialAction SearchAction	Not Meeting	[Low] Add WebSite schema with a SearchAction potentialAction for a sitelinks searchbox.
Review / Rating schema Crawl · Medium	AggregateRating on product/service pages	Partial	[Low] Add AggregateRating/Review schema to product/service pages.
Video schema Crawl · Medium	VideoObject with thumbnail, duration, uploadDate	Partial	[Low] Add VideoObject schema (thumbnail, duration, uploadDate) for video content.

Off-Page & Authority — 75.0/100

Parameter	What to check	Rating	Recommendation / Detail
Backlink profile Manual · None	Domain authority distribution; toxic ratio; anchor diversity	Manual	Requires an off-site link index (e.g. Ahrefs/Majestic); not crawlable.
Referring domain count Manual · None	Unique linking root domains; trend	Manual	Requires an off-site link index.
Topical authority LLM · Medium	Topic cluster breadth; hub-spoke internal linking	Partial	[Med] Restructure navigation into logical silos (e.g., 'Diagnostics', 'Wellness Programs', 'Specialized Care') to establish clear topical authority and internal link hierarchy.
Brand mentions (unlinked) Manual · None	Citation signals across the web	Manual	Requires off-site monitoring; not exposed by a crawl/GA4/GSC.
Competitor link gap Manual · None	Links competitors have that you lack	Manual	Requires an off-site link index + competitor data.
NAP consistency (local) - on-page Crawl · High	Name/Address/Phone present and consistent on page	Meeting	name=True, phone=True, address=True
NAP consistency (local) - cross-directory Manual · None	Identical across external directories	Manual	Requires external directory data (Yelp, GBP, etc.).
Google Business Profile Manual · None	Verified, complete listing; reviews; posts	Manual	Requires Business Profile ownership/listing data.

UX & Engagement Signals — 0.0/100

Parameter	What to check	Rating	Recommendation / Detail
Click-through rate (CTR) Manual · None	GSC CTR vs position benchmark	Manual	Add the domain to connected_properties.json and sign in via scripts/google_auth.py.
Dwell time / scroll depth Manual · None	GA4 engagement proxy	Manual	Requires GA4 access (domain not connected).
Bounce rate in context Manual · None	High bounce interpreted by page type	Manual	Requires GA4 access (domain not connected).
Pogo-sticking risk Manual · None	Users returning to SERP quickly = intent mismatch	Manual	Requires GA4 + GSC data (domain not connected).
Search intent alignment LLM · Medium	Informational/navigational/c ommercial/transactional match	Not Meeting	[Med] Remove redundant navigation text from the body content. Replace with unique, benefit-driven copy for each service to improve topical authority and user experience.

Site Audit Supplementary Checks — 0.0/100

Parameter	What to check	Rating	Recommendation / Detail
Meta refresh tag Crawl · High	No meta http-equiv=refresh redirects	Meeting	absent
Character encoding Crawl · High	Charset declared in meta or Content-Type header	Meeting	content-type=text/html; charset=UTF-8
DOCTYPE Crawl · High	HTML document declares a DOCTYPE	Meeting	
Plugin content Crawl · High	No legacy object/embed plugin content	Meeting	
Frame tags Crawl · High	No frame/iframe layout tags	Meeting	
Duplicate H1 and title Crawl · High	H1 text differs from the title tag	Meeting	h1='We Use Cutting Edge Science To Optimize your Life'
On-page link count Crawl · High	Fewer than 3000 on-page links	Meeting	links=183
Text-HTML ratio Crawl · High	Visible text is at least 10% of HTML size	Not Meeting	[Med] ratio=3.36%, text_bytes=7786, html_bytes=231839
Excessive word count Crawl · High	Page word count below 5000 words	Meeting	words=1111
Internal nofollow links Crawl · High	Internal links should not use rel=nofollow	Meeting	count=0
External nofollow links Crawl · High	Document whether external links use rel=nofollow	Meeting	count=0
HTML compression Crawl · High	HTML response uses Content-Encoding compression	Meeting	encoding=gzip
Script stylesheet count Crawl · High	Fewer than 50 JS/CSS file references	Meeting	count=36

Parameter	What to check	Rating	Recommendation / Detail
HTML byte size Crawl · High	HTML payload below 2 MB	Meeting	bytes=183618
Broken internal images Crawl · High	All internal image URLs return HTTP < 400	Meeting	broken=0
Broken external images Crawl · High	External image URLs return HTTP < 400	Meeting	broken=0
Broken internal assets Crawl · High	Internal JS/CSS assets return HTTP < 400	Meeting	broken=0
Broken external assets Crawl · High	External JS/CSS assets return HTTP < 400	Meeting	broken=0
Uncached assets Crawl · High	JS/CSS assets have Cache-Control max-age	Partial	[Med] uncached=2
Uncompressed assets Crawl · High	JS/CSS assets served with Content-Encoding compression	Partial	[Med] uncompressed=5
External link 403 Crawl · High	External links do not return HTTP 403	Meeting	count=0
Malformed link URLs Crawl · High	All anchor hrefs are valid http(s) URLs	Meeting	count=0
Crawl failures Crawl · High	Sampled internal URLs are reachable	Meeting	failures=0
DNS resolution Crawl · High	Primary host resolves via DNS	Meeting	
Robots blocked internal resources Crawl · High	robots.txt does not block internal JS/CSS/images	Meeting	blocked=0
Robots blocked external resources Crawl · High	robots.txt does not block third-party assets	Meeting	blocked=0
WWW resolve Crawl · High	www and non-www hostnames resolve to the same site	Meeting	
Certificate hostname Crawl · High	TLS certificate CN/SAN matches hostname; not expired	Not Meeting	[Med] hostname_ok=False, days=None
TLS protocol version Crawl · High	TLS 1.2 or newer negotiated	Meeting	version=unknown
TLS subdomain ciphers Crawl · High	Discovered subdomains use TLS 1.2+ and strong cipher suites	Meeting	weak_hosts=[]
TLS subdomain SNI Crawl · High	Discovered subdomains support SNI for virtual-host TLS	Meeting	sni_issues=[]
Resource page links Crawl · High	Binary/media files are not linked via plain anchor tags	Meeting	count=0

Parameter	What to check	Rating	Recommendation / Detail
Sitemap size limit Crawl · High	Sitemap contains fewer than 50,000 URLs	Meeting	urls=1
Sitemap HTTP locs Crawl · High	HTTPS sites use https:// locs in sitemap.xml	Meeting	http_locs=0
Sitemap URL validation Crawl · High	Sampled sitemap URLs return HTTP 200	Meeting	bad=0
Orphaned sitemap pages Crawl · High	Sitemap URLs have internal inlinks or GSC impressions	Partial	[Med] orphaned=1
Unminified assets PSI PSI · High	PSI reports no unminified JS/CSS	Partial	[Med] js=1, css=0
JS CSS total size PSI PSI · High	PSI unused JavaScript score acceptable	Partial	[Med] unused_js=0
AMP canonical tag Crawl · High	AMP pages declare a canonical link to the non-AMP URL	Meeting	no AMP markup
HTTP homepage HTTPS redirect Crawl · High	HTTP homepage redirects or canonicals to HTTPS	Meeting	redirects to https://preventativemedbyscience.com/
Title too short Crawl · High	Title tags are at least 30 characters on crawled pages	Meeting	short=0
Title too long Crawl · High	Title tags are at most 60 characters on crawled pages	Not Meeting	[Med] long=3
Internal link distribution Crawl · High	Incoming internal link counts bucketed across crawled pages	Meeting	crawled=13
Internal inlink count Crawl · High	Crawled pages with only one incoming internal link	Meeting	single_inlink_pages=0
GA4 orphaned pages Manual · None	GA4 pages with sessions are reachable via internal crawl	Manual	Requires Connected Mode GA4 property for page inventory
Crawl status inventory Crawl · High	Blocked/redirect/broken/healthy counts across shallow crawl	Meeting	crawled=13; healthy=5; broken=0; redirected=0; have_issues=8
AI blocked pages aggregate Crawl · High	Share of crawled pages blocked from major AI crawlers	Meeting	blocked=0; crawled=13; pct=0.0%
Site Health score Crawl · High	Site-wide issue density across shallow crawl	Not Meeting	[Med] score=38%; issues=8; crawled=13
